

REGISTER BOOK

2021

INDEX

KEY TO ABBREVIATIONS, MARKS, SYMBOLS, ETC., USED IN THE BOOK.....	III
SHIPS, INCLUDED IN THE BOOK IN ORDER OF THEIR REGISTER NUMBER.....	3
BOOK OF THE SHIPS CLASSED BY TASNEEF (PLEASURE AND NAVAL VESSELS EXCLUDED).....	7
APPENDIX TO THE BOOK	
- List of ships not included in the 2020 edition of the Register Book, which are included in the Book as at 31 December 2020.....	49
- List of ships which appeared in the 2020 edition of the Register Book and which, in the Book as at 31 December 2020, are not listed.....	53
- Former names of ships included in the Book.....	57
- Alphabetical list of Owners of ships listed in the Book, with their ships classed by Tasneef.....	61
- Alphabetical list of Shipyards included in the Book and of ships built by them and classed by Tasneef.....	67

*Key to abbreviations, marks, symbols, etc.,
used in the Book*

N.B.: In the case of vessels recently entered into class, some data may have not been recorded yet (in this case the relevant space is void).

Name	
Ship name	
Register No.	
It is the Register number, assigned by the Society, which will remain unchanged during the life of the ship	
IMO number	
It is specified the identification number assigned to the ship by the IMO (International Maritime Organization)	
Former names	
Ship name history	
Category	
GL	Non-self-propelled craft
HSC A CAT	High speed craft - catamaran - (A category)
HSC C MON	High speed craft - monohull - (C category)
MN	Motorship
MS	Motor-boat
PL (aut)	Self-elevating mobile platform
Service	
container ship	Ship specially intended to carry containers in holds or on decks.
deck cargo ship	Ships designed to carry solid general cargo exclusively above deck without any access for cargo below deck.
escort tug	Ship specially equipped for towing and/or pushing having specific equipment for escorting ships or units during navigation.
fire-fighting ship - 1	Ship specially intended and equipped for fighting fire.
hopper dredger	Ship specially equipped for dredging activities and carrying spoils or dredged material.
Offshore Support Vessel	Ship specially intended to provide facilities and assistance for the performance of offshore activities
passenger ship	Ship intended to carry more than 12 passengers.
pontoon	Non-propelled unit intended to carry cargo and/or equipment on deck only.
pontoon - crane	Non-propelled unit intended to carry cargo and/or equipment on deck only. Unit with crane permanently fitted on board.
ro-ro cargo ship	Ship specially intended to carry vehicles, trains or loads on wheeled beds.
ro-ro passenger ship	Ship intended to carry more than 12 passengers and specially equipped to load trains or wheeled vehicles.
special service	
supply vessel	Ship specially intended for the carriage and/or storage of special material and equipment and/or which is used to provide facilities and assistance for the performance of specified activities.
tug	Ship specially equipped for towing and/or pushing.
Owner	
Registered Owner name	
Flag	
The country the flag of which the ship is entitled to fly is specified in bold type.	
Call sign	
It consists of signal letters or radio call sign assigned by the national authority	
Port of registry	
Port in which the ship is officially registered. (Reg. Int.) indicates the Italian International Registry.	
No of registry	
Identification number assigned by the national authority.	
Dec. Office	
Abbreviation identifying the Branch Office where documents relevant to the ship are filed and which provides to manage the same ship.	
CSD	Classification and Statutory
OPN	Operations

Main Class symbols and Construction marks	
C ☼	Ship surveyed during construction
C ☼	Ship surveyed during construction by a QSCS Classification Society
C ●	Ship not surveyed during construction
C ● (light ship)	Ship not surveyed during construction, light ship
C ● HULL	Ship hull not surveyed during construction, no machinery covered
C ☼ HULL	Ship hull surveyed during construction by a QSCS Classification Society, no machinery covered
C ☼ HULL ● MACH	Ship hull surveyed during construction by a QSCS Classification Society, machinery not surveyed
Navigation	
coastal area	Within 20 (twenty) nautical miles from the shore and with a maximum sailing time of six hours from a port of refuge or safe sheltered anchorage.
inland waterways	In specified lakes, rivers or canals.
sheltered area	In sheltered waters, i.e. harbours, estuaries, roadsteads, bays, lagoons and generally calm stretches of water and when the wind force does not exceed 6 (six) Beaufort scale.
special navigation	Special International
special navigation	Special National
Special Navigation (Arabian Peninsula)	Special Navigation (Arabian Peninsula)
tropical zone	Within the geographical limits as defined in ILLC 1966 for the Tropical zones.
unrestricted - specified operating area	unrestricted navigation, under specific operating conditions (see remarks)
unrestricted navigation	Unrestricted navigation
First entry Running from Period of class	
Date of entry into class, date of commencement of the class period in force and its duration (years:months:days).	
Continuous surveys	
When the ship is admitted to the continuous survey procedure for the hull and/or machinery installations, the abbreviations H and/or M are indicated.	
Additional notations	
☼ AUT-UMS	Unattended machinery space: automated installations enabling machinery spaces to remain periodically unattended in all sailing conditions including manoeuvring. System surveyed during construction.
☼ AUT-UMS	Unattended machinery space: automated installations enabling machinery spaces to remain periodically unattended in all sailing conditions including manoeuvring. System surveyed during construction by a QSCS Classification Society.
● AUT-UMS	Unattended machinery space: automated installations enabling machinery spaces to remain periodically unattended in all sailing conditions including manoeuvring. System not surveyed during construction.
BWM-E - sequential	The ship complies with the "International Convention for the Control and Management of Ship's Ballast Water and Sediments" as adopted by IMO on 13 February 2004, by means of a Ballast Water Exchange system of a sequential type
CARGO HANDLING	Unit provided with lifting arrangements to load and unload cargoes: from the unit itself to shore facilities and vice versa, from the unit itself to another unit and vice versa (transshipment), from a delivery unit to a receiving unit. The lifting arrangements are to comply with the "Rules for loading and unloading arrangements and for other lifting appliances on board ships or other similar units"
COAT-WBT	Ship surveyed during construction, whose water ballast tanks have been provided with protective coatings complying with the requirements given in the Classification Rules, Pt F, Ch 10, Sec 12.
COMF-NOISE-A	Comfort with regard to noise; merit level "A".
COMF-VIB-A	Comfort with regard to vibration; merit level "A".
DANGEROUS GOODS	the ship complies with the provisions for the carriage of dangerous goods given in SOLAS Regulation II-2/19.
DMS	The ship complies with the damage stability requirements in accordance with the applicable Classification Rules
● DYNAPOS	Dynamic positioning system. System not surveyed during construction.
● DYNAPOS AM/AT	Dynamic positioning system (automatic mode and tracking). System not surveyed during construction.
GREEN STAR 3	Ship provided with equipment and procedural means, additional to the mandatory ones, to prevent pollution of the sea and of the air.
GREEN STAR 3 DESIGN	Sea and air pollution prevention (CLEAN-SEA and CLEAN-AIR): construction and procedural means to prevent pollution of the sea and of the air (ship whose keel was laid on or after 1/7/2006).
ICE CLASS ID	Navigation in ice: reinforcements for navigation in ice complying with specific requirements.
INWATERSURVEY	Ship provided with suitable arrangements to facilitate the in-water surveys.
MON-SHAFT	Tailshaft monitoring system: fitted with a temperature monitoring system for the tailshaft sterntube aft bearing.
Other Classification Societies	
If a ship is classed also with another Society, this Society is recorded with the abbreviations listed below. Where the abbreviation is shown in brackets, this indicates that the ship was previously classed with that Society	
ABS	American Bureau of Shipping
B.C.	Bureau Colombo
BV	Bureau Veritas

Other Classification Societies	
IRS	<i>Indian Register of Shipping</i>
LR	<i>Lloyd's Register of Shipping</i>
NKK	<i>Nippon Kaiji Kyokai</i>
RINA	<i>RINA Services S.p.A.</i>
RS	<i>Russian Maritime Register of Shipping</i>
VL	<i>DNV GL</i>
Equip. No.	
<i>Equipment Number EN according to Classification Rules.</i>	

Gross tonnage - Net tonnage
The values of the gross and net tonnage may be indicated as specified in the following: - Values of the international gross (GT) and net tonnage (NT) - Values of the gross and net national tonnage (according to the rules of the flag Administration)
Deadweight
The abbreviation Dwt is followed by the value of the deadweight in metric tons
Overall length
The abbreviation Loa is followed by the value of the maximum overall length, in metres
TONNAGE DIMENS.
International tonnage measurement
For ships whose tonnage has been determined according to the provisions of the 1969 International Convention, the main registered di-mensions, in m, are given as follows top to bottom: - registered length corresponding to 96 per cent of the total length on a waterline at 85 per cent of the least moulded depth measured from the top of the keel, or the length from the fore side of the stem to the axis of the rudder stock on that waterline, whichever is the greater - maximum breadth measured at half the registered length defined above to the moulded line of the frame, in a ship with a metal shell) and to the outer surface of the hull, in a ship with a shell of any other material - depth, corresponding to the vertical distance measured from the top of the keel to the underside of the upper deck at side measured at half the registered length defined above
National tonnage measurements
For ships whose tonnage has been determined in accordance with national regulations, the main registered dimensions (length, breadth and depth, in m), are given as follows from top to bottom: - maximum overall length - maximum breadth to the outer surface of the shell plating - depth measured on the centreline at hull midship section from the underside of the tonnage deck to the inner bottom (to the top of the floor of bottom longitudinals, in ships without double bottom)
moulded dimens.
The main moulded dimensions recorded in <i>Italic type</i> , from top to bottom, are the length between perpendiculars, the breadth and the depth, respectively, measured, in metres, as follows: - length (for ships with a metallic shell) measured from the fore side of the stem to the after side of the rudder post, at the summer load waterline, or length (for wooden ships) measured from the after side of the stem to the fore side of the rudder post at their intersection with the lower surface of the main deck planking (where no rudder post is fitted, the centreline of the rudder stock is assumed as after end) - greatest breadth amidships from heel of frame to heel of frame - depth equal to the vertical distance amidships from the top of keel to the free-board deck beam at side; in case of ships with metal shell, or, in case of wooden ships, to the vertical distance measured from the upper corner of the keel rabbet to the main deck beam at side
Free board
After the abbreviation fb, it is specified the value, in mm, of the freeboard assigned, i. e. the distance measured vertically amidships from the upper edge of the load line mark (centre of ring) to the upper edge of the deck line. The deck line is a horizontal line, 300 mm in length and 25 mm in breadth, which is marked amidships on each side of the ship, whose upper edge normally passes through the point where the continuation outwards of the upper surface of the freeboard deck intersects the outer surface of the shell. In some special cases, the deck line may be placed and marked above or below the freeboard deck; in such cases, below the value of the freeboard assigned, the value of the distance, in mm, measured vertically from the deck line and the freeboard deck is indicated after the abbreviation dld (with the negative sign, if the deck line is placed and marked below the freeboard deck)
Deck line dist.
Deck line distance (dld)
Draught
The abbreviation Dght is followed by the value, in mm, of the maximum draught amidships when the ship is loaded to her summer load line mark (centre of the ring), measured from underkeel line. When the draught is measured from the moulded line instead of the underkeel line, the relevant value is followed by the letters Lc.
Cargo linear mt
Car number
Truck number

HULL	
<i>The Builder and the year, month, place and number of building are indicated by bold, Italic and normal type. The year of build is the year and month at which the new construction survey process is completed.</i>	
Builder	
<i>Builder</i>	
Building place	
<i>Building place</i>	
Year of build	
<i>Year of build</i>	
Hull No.	
<i>Number of build</i>	
Hull material	
Composite	<i>Composite</i>
Light alloy	<i>Light alloy</i>
Steel/High resistance	<i>Steel/High resistance</i>
Steel/High resistance and ordinary	<i>Steel/High resistance and ordinary</i>
Steel/Inox	<i>Steel/Inox</i>
Steel/Ordinary	<i>Steel/Ordinary</i>
decks	
<i>The constructional details concerned are recorded in the order from aft to fore and from top to bottom. The number of decks fitted on board are given before the relevant abbreviations.</i>	
Dk	<i>Complete decks</i>
Dk(p)	<i>Partial decks</i>
CONSTRUCTIONAL DETAILS	
Keel type	
BK	<i>Bar keel</i>
DK	<i>Duct keel</i>
FLK	<i>Flat keel</i>
Stern type	
CrSt	<i>Cruiser stern</i>
FLSt	<i>Transom stern</i>
RSt	<i>Round Stern</i>
SLSt	<i>Inclined</i>
SqSt	<i>Square stern</i>
Bow type	
BuB	<i>Bulbous bow</i>
FLB	<i>Transom bow</i>
FoB	<i>Flaring bow</i>
RB	<i>Bluff bow</i>
RpB	<i>Bow door</i>
SLB	<i>Inclined bow</i>
SqB	<i>Square bow</i>
Strb	<i>Straight bow</i>
Construction type	
L/TFr	<i>Longitudinal\Transvers</i>
LFr	<i>Longitudinal</i>
TFr	<i>Transvers</i>
Soldering type	
FWel	<i>Welded hull</i>
Equipment engine position	
Maft	<i>Aft</i>
Mcr	<i>Center</i>
Mfwd	<i>Fore</i>
Hatchways	
<i>Cargo hatchways</i>	

Derricks and cranes	
<i>Cargo derricks and cranes</i>	
Cr	<i>Crane</i>
Alterations to the hull	
<i>Alterations, conversions, modifications and major repairs relevant to the hull</i>	
Every abbreviation may be followed by the indication of the year of completion of the works concerned.	

MACHINERY	
<i>The above-mentioned details concerning the propulsion machinery are indicated by bold, Italic and normal type.</i>	
<i>The year of build is the year in which the construction of the machinery has been completed.</i>	
<i>In the case of ships or other units not provided with mechanical means for their self-propulsion, such as, for example, non self-propelled craft (GL), sailing ships (VL), floating storage units (FSO, FPSO), etc., in lieu of the indication of number, type, manufacturer and year of build of the propulsion machinery, the wording "NON SELF-PROPELLED" will appear.</i>	
Type	
<i>Type of propulsaion machinery</i>	
DIE	<i>Diesel engine</i>
ELM-Ac	<i>Alternating current electric motor</i>
Year of build	
Manufacturer - Place of build	
Power, in kW - r.p.m.	
CHARACTERISTICS OF PROPULSION MACHINERY	
2S	<i>Two stroke engine</i>
4S	<i>Four stroke engine</i>
Chp	<i>Engine having cross head pistons</i>
Trp	<i>Trunk piston engine</i>
cyl-line	<i>Engine with in line cylinders</i>
cyl-Vee	<i>Vee-type cylinder engine</i>
MAIN AND AUXILIARY BOILERS	
Boiler type	
AB	<i>Auxiliary boiler</i>
MB	<i>Main boiler</i>
Boiler type of construction	
CFt	<i>Cylindrical fire tube type</i>
Cft	<i>Fire tube boiler</i>
Lpsg	<i>Low pressure steam generator</i>
Toh	<i>Thermal oil heater</i>
Wt	<i>Water tube boiler</i>
Combined boiler alternative combustibile	
Boh	<i>Boil-off heating</i>
Gas	<i>Gas fired boiler</i>
Gas/Exh	<i>Exhaust gas boiler</i>
Oil	<i>Oil heated boiler</i>
Oil/Exh	<i>Composite (oil and exhaust gas) heated boiler</i>
Oil/Gas	<i>Composite (oil and gas) heated boiler</i>
Oil/Sth	<i>Composite (oil and steam) heated boiler</i>
Oil/Sth	<i>Oil fired - cargo vapour boiler</i>
Sth	<i>Steam heated boiler</i>
Toh	<i>Thermal oil heater</i>
Low pressure and thermal oil boiler combustibile	
Exh	<i>Exhaust gas heated boiler</i>
Flu	<i>Thermal oil heater</i>
Oil	<i>Oil heated boiler</i>
Boiler properties	
HS	<i>Heating surface</i>
Sht	<i>Superheater</i>
ELECTRICAL PLAN - GENERATORS	
Ac	<i>Alternating current electrical generator</i>
SCREWSHAFTS AND PROPELLERS	
Propeller type	
Cpp	<i>Controllable pitch propeller</i>
Fbp	<i>Fixed blade propeller</i>
ST-fwd	<i>Fore side thruster</i>

Screwshafts	
Cls	<i>Screwshaft fitted with continuous liner</i>
Crms	<i>Screwshaft made of stainless steel or other corrosion resistant material</i>
Ncls	<i>Screwshaft fitted with non-continuous liner or without liner</i>
Propeller shaft lubricating medium	
Gls	<i>Grease lubricated screwshaft</i>
Ols	<i>Oil lubricated screwshaft</i>
Wls	<i>Water lubricated screwshaft</i>
Propeller shaft outboard coupling type	
Fp	<i>Propeller fitted to a solid flange coupling at the aft screwshaft end</i>
Kp	<i>Propeller keyed to the aft screwshaft taper without the keyway shaped to reduce stress concentration</i>
Ksp	<i>Propeller keyed to the aft screwshaft taper with the keyway shaped to reduce stress concentration</i>
Shp	<i>Propeller fitted keyless to the aft screwshaft taper by means of shrinkage</i>
Special propulsion type	
Hyd	<i>Hydrojet propulsion</i>
Schot	<i>Schottel type propeller</i>
Sde	<i>Propulsion by stern drive engine (s)</i>

*Alphabetical list of Owners of ships listed in the Book
with their ships classed by Tasneef*

NOTES

For each concerned Shipowner, the information in this List is given in the following order:

- Shipowner name and relevant identification Code (given between brackets)
- Registered Office of the Shipowner (address, phone, telefax, telex and cable/E-Mail)
- Management Office of the Shipowner, when different from the Registered Office (postal address, phone, telefax, telex and cable/E-Mail)

In addition, for each ship belonging to the concerned Shipowner and classed by Tasneef, the following information is given:

Column 1	Register number
Column 2	Ship's name
Column 3	Ship's service (Abbr.)
Column 4	Year of build
Column 5	Gross tonnage
